

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1-112. (Cancelled).

113. (New) A cleaning system for cleaning a water supply apparatus, comprising:
- a tap water inlet;
 - a mineral dosing unit configured to dose tap water to provide mineral water;
 - a control unit configured to control water processing means to provide mineral water to the water supply apparatus, according to a predetermined water processing program;
 - a cleaning system with at least one cleaning agent vessel from which, in use, cleaning agent is supplied, directly or indirectly, to the water supply apparatus;
- wherein the cleaning system includes a cleaning system control unit configured to control the water processing means according to a predetermined cleaning program and to clean at least a part of the water processing means.
